**Subject:** Notice of 15-Day Public Comment Period: Proposed Aquifer Exemption, Arroyo Grande Oil Field

**This is a message from the State Water Resources Control Board.**

Greetings,

The California Department of Conservation, Division of Oil, Gas, and Geothermal Resources ( "Division"), in consultation with the State Water Resources Control Board and the Central Coast Regional Water Quality Control Board (collectively "Water Boards"), have provided additional information to the proposed exemption and, therefore, reopened a 15-day supplemental comment period to receive comment on the additional information.

On August 20, 2015 the Division, in consultation with the Water Boards, sent the initial public notice regarding a proposal to expand the current aquifer exemption designation for the Dollie sands of the Pismo formation in the Arroyo Grande oil field (in unincorporated San Luis Obispo county near the intersection of Ormonde Road and Price Canyon Road). Subject to approval by the United States Environmental Protection Agency, the proposed aquifer exemption would allow the State, in compliance with the federal Safe Drinking Water Act, to approve Class II injection into the identified area, either for enhanced oil recovery or for injection disposal of fluids associated with oil and gas production.

Documents related to the Aquifer Exemption proposal, and information regarding how to submit comments can be found on the Division's website at:

[http://www.conservation.ca.gov/dog/Pages/Aquifer\\_Exemptions.aspx](http://www.conservation.ca.gov/dog/Pages/Aquifer_Exemptions.aspx)

Thank you,

Janice H. Zinky, P.G.

Oil and Gas Monitoring Unit I Chief

State Water Resources Control Board
